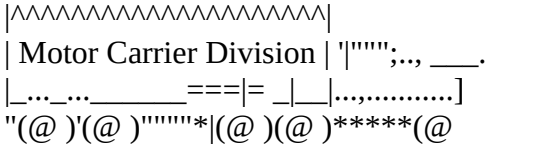
GREAT NEWS

For

100% NV SPECIAL FUEL USE TAX FILERS

Due to the passage of AB595 during the 2007 Legislative Session, 100% NV carriers will no longer be required to file a quarterly special fuel use tax return, beginning with the period ending September 30, 2007 *(100% NV carriers are those carriers that travel within Nevada only*). Mileage and fuel records must be retained for audit purposes and off-road usage claims and 100% NV carrier will still be required to obtain an annual Special Fuel User's License.

The 2nd quarter 2007 tax return for the period ending on June 30, 2007, will be the final special fuel use tax return that 100% NV carriers are required to submit.

Those carriers licensed for IFTA must continue to file a quarterly special fuel use tax return, obtain an annual IFTA license, and decals for their interstate vehicles. *(IFTA carriers are those carriers licensed to travel in Nevada and other states).*


Should you have any questions, please contact the Motor Carrier Division, Fuel User Unit, at 775.684.4711, ext 2. Thank you!
